- Sustainable Core Services;
- Infrastructure; and
- Vibrant and Prosperous Community.

"This plan will help us be accountable to our community, ensuring that the decisions Council makes and the actions that Administration take are achieving our long-term goals. It sets a vision for where we want The Corporation of the Town of Kirkland Lake to be at the end of this Council's Term and will help future councils continue that vision for our municipality." says Mayor Stacy Wight. "I want to thank residents, community stakeholders, fellow Council Members, and all Town Staff for the collaboration and consideration that went into building this Plan. Because of that collaboration and consideration, I am eager to move the Plan forward."

To support the implementation of the Plan, Town Administration are creating an annual Corporate Business Plan that will be integrated into the annual budget process to ensure alignment with the Town's Vision noted in the Plan.
